I dont know whether its novel or not. 428/34.9, 910 is the search for shrinkable things.

Would you give me a search for the above case? Is the direction of the shrinkage and/or growth naval? At least one of the prior art I used (US 6,248,427 B1) teaches shrinking in the longitudinal direction and stretching in the circumferential direction. Do you have a keyword suggestion?

Thank You!
